

CONCEPT SCHOOLS @ NARAYANA

A MONTHLY NEWS LETTER FROM NARAYANA CONCEPT SCHOOLS, ANDHRA PRADESH

VOLUME : 1

ISSUE : 11

NOVEMBER, 2008

Voice of the Parents

Both of our children are studying in Narayana Concept School, Nellore. The elder one is studying in X-Class and the younger one is in VI-Class. We feel we are fortunate that our children are getting educated in this school. Every child receives individual Communication skills. They become well disciplined. They are very regular at academics and secure good marks. The management takes every care to make the children attend school regularly. Hence we like this school very much.

- Mr.Pasupulati Subbaiah M/O Mrs. Manjula NCS-NLR

As a parent I feel greatly delighted for my children the students of NCS, Nellore, where they are given utmost importance. The environment here is such that a child is always a contestant in some event or the other. The activities at NCS, Nellore provide alround development i.e.,Physically, Mentally, Scientifically and Morally which play a vital role in every walk of life.

- Md. Imran VI class M/O Ms. S. Quamar Jehan NCS-NELLORE

18. Ms. Madhavi, Principal, NCS, Kadapa
19. Mr. Shareef, Principal, NCS, Kadapa

A.P. FORMATION DAY - ROLE OF POTTI SRI RAMULU

Sriramulu was born in Chennai in 1890. His parents were from Nellore district. Potti Srimulu had his early education in Chennai and then higher studies in engineering in Mumbai. He worked as an engineer for a while at "Indian Peninsular Railway." After his wife died in his 25th year, he joined Sabarmati Ashram. He was admired by Gandhiji for his dedicated and sincere work.

In 1946, he went to Nellore and devoted his time for Harijan welfare work and propagation of khadi and village industries. He undertook three fasts during 1946-1948 for the temple entry of Harijans in Nellore.

Potti Srimulu began his last fast on 19th October 1952 at Chennai for a day and died on the night of 15th December 1952. This resulted in wide spread disturbances and then opened the eyes of Nehru's Government. Thus, Andhra state was precude to be formed in October 1953, which catalyzed the formation of other linguistic states. On November 1st, 1956 Andhra Pradesh, Kerala, Tamilnadu, Karnataka state were formed.

Potti Srimulu had become Amarajeevi for Telugu's today, we are celebrating the Andhra Pradesh formation day, only because of Amarajeevi Potti Srimulu. On his name Nellore district is remembered as Potti Srimulu district

MULTIPLICATION WITH 99

We know that multiplication with 99 is very easy. But after learning my method you can multiply with 99 in two seconds with any two digit number

EX: 1) 99×87

(i) First subtract 1 from 87
 $= 87-1 = 86$

(ii) Then add 1 to 99 it becomes hundred and subtract 87 from 100.

(iii) Combine 86 and 13.

i.e. 8613

$\therefore 99 \times 87 \Rightarrow 8613.$

Ex: 2) 99×74

(i) $74-1 = 73$

(ii) $99+1 = 100$

(iii) $-73-26$

$\Rightarrow 7326$

$99 \times 74 = 7326$

MR. EXAMINATION

Oh! examination, examination

To welcome you, I've made no preparation.

Kindly tell me what to do

you are early, I am late

I am daily losing weight

Can't you leave me this year

And be an honoured guest next year.

GIFT TO GIVE

The best thing to give

Out enemy is forgiveness

To an opponent, tolerance;

To a friend your hear;

To your child, a good example;

To a father, deference;

To your mother. conduct that u will

Make her proud of you.

To yourself respect

To all the men charity.

TONGUE TWISTER

Sheela sells sea shells on the sea shore but the shells which sheela sells are not sea shells.

- By CH.Snigdha ,VI Class, NCS - KPHB

DIABETES DAY

World diabetes day is celebrated on 14th November every year, the day on which insulin was discovered in 1921/ It was first celebrated in 1991. The day is co-sponsored by the world health Organization [WHO].

Our body produces a hormone called Insulin, which regulates the amount of glucose in the blood. The lack of insulin cause Diabetes. Diabetes cannot be cured, but it can be controlled. A person suffering from Diabetes has to maintain his body weight under control by adhering to a strict diet. The best way to keep diabetes under control is to take regular exercises, yoga or a brisk walk. Of late, there is a rapid increase in the incidence of diabetes through out the world and this is causing a great concern among people. On the world Diabetes Day efforts are made to make people across the globe aware of the risks and managements of diabetes.

WHO IS A TEACHER

A Teacher is a gardener, Students are the flowers.

She nurtures with knowledge, and watch them grow.

A teacher is not someone who only teaches the subject.

but teaches Life as well. Mother gives us life but a teacher

helps us how to live. All professions can boast but the

teacher boosts them all.

- By K.R.SUMA VIII, NCS - KP

FRIEND.....

Friend and Blood have only

one difference

Blood enters heart and flows out

But Friend enters heart and stays

inside forever ever..... ever and ever.

- By P. Tara Vandana, IX Class,
NCS - Ameerpet.

SECULARISM - MUGHAL PERIOD

Tolerance is the hallmark of Indian culture. This is very much depicted in our secularistic philosophy. Religions tolerance is inherent in our way of life. It was very much followed in the mughals period.

Mughals who were outsiders, who established their empire in India also followed religions tolerance. The mughals too celebrated the festivals like Diwali, Sankranti and other important Hindu festivals.

This is an account in 'Ain-e-Akbari' by Abul Fazal that Akbar celebrated Diwali in a grand manner. He ordered to decorate the houses with lamps not only in Agra but the whole country.

It was mentioned in a book called Dast-e-Jahangir that Jahangir and Noorjahan liked to burst crackers during diwali celebrations.

Shahjahan used to invite all the VIP's from different religion for lunch or dinner and presented sweets and cloths on all festive days including important Hindu festivals.

These festivals were celebrated as a part of cultural unity through out the country in Mughal period and was not confined to one religion.

- Mrs. Jayanthi - Principal, NCS - NG

MAGIC SQUARE

Is this a magic square? If so why?

1	12	10
15	2	4
8	5	3

Ans) This is a Multiplication magic square because the product of each set of 3 numbers in any column or row is constant that is 120.

SPACE FACTS

Sun is a star. It is a gigantic ball of burning gases. It has been shining for about 5 billion years.

Mercury is the fastest planet mercury zooms around the sun in just 88 days at an incredible speed than any space rocket

You can fit 740 Earths into Saturn

Saturn is so light that it can float in water. Because it is made up of liquids and gases with a small rocky centre.

The poles of Uranus are warmer than its equator. Because Uranus is tilted on its sides

- By K.Tejaswini VI Class, NCS - CDP

WHAT IS THINKING

Thinking is not just

A process of linking ideas

Together to impress fools

But a process of diving deep

Into the ocean of consciousness

In search of Germs of truth

- By V.P. Nikhitha, IX Class, NCS - DNSR

SHHHH.....SECRET.....

The 7 secrets of success lying in our room itself! Yes.

Roof says : Aim high.

Fan says : Be cool.

Clock says : Every minute is precious.

Mirror says : Reflect before you act.

Window says : See the world.

Calendar says : Be updated.

Door says : Push hard to achieve your goals...!

- By IX Class, BOYS - NCS - UHS

JOKES

Father : Raju how did you write your exam!

Raju : Father, I wrote the exam nicely.

Father : How many questions are there total and how many Questions you have written

Raju : There are 10 Questions total. I did not write first four and last six.

- By K.B. Murali Krishna IV, NCS - SBD

Teacher : What did Gandhiji give us on 15th August?

Poonam : A holiday.

Teacher : What did you tell your teacher? She fainted due to shock.

Student : Nothing sir, I just told her that I did my home work.

Teacher : This essay that you have written on your pet dog is exactly similar to that of your brother's

Student : Of course, Madam, it is same dog.
